30	Caesar Guerini: Brescia, Italy

Our Commitment...

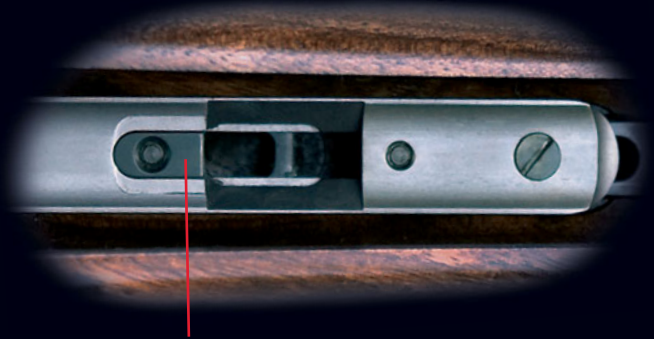

It is our commitment to an unending quest for excellence that makes a Caesar Guerini unique from all other over-and-unders. You can see it in the wood-to-metal fit, the deep lustrous blueing, and the flawless 26 lines per inch checkering. You can feel it in the precision of the internal parts machined from billet steel, as well as the lively balance and handling of our guns. Every Caesar Guerini shotgun goes through no less than 256 quality control checks assuring our product exceeds the demands of our customers.

Our real commitment to our customers is not in simply providing the best product possible. It is also in giving them a level of unprecedented customer service. From our industry leading warranty and ground breaking PitStop program, to our timely service measured in days not months. We strive to leave every customer, a satisfied customer. That is the Caesar Guerini commitment.

FIELD MODELS

A detailed photograph of two ornate, engraved shotguns, likely Remington-Union models, resting on a textured surface. The shotguns feature intricate engravings, including three birds on the receiver. A braided leather strap with metal rings and a wooden horn are also visible.

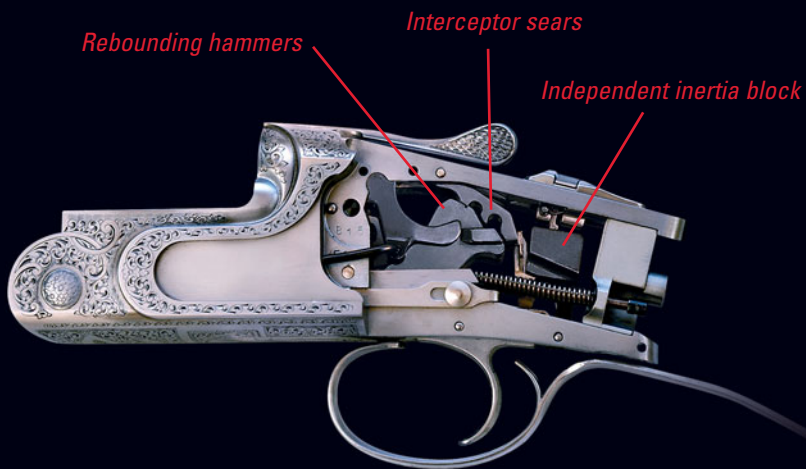

The fore-end incorporates an interchangeable insert in special hardened steel that makes it easy to tighten the shotgun if it becomes loose through years of very heavy use.

1370 BAR

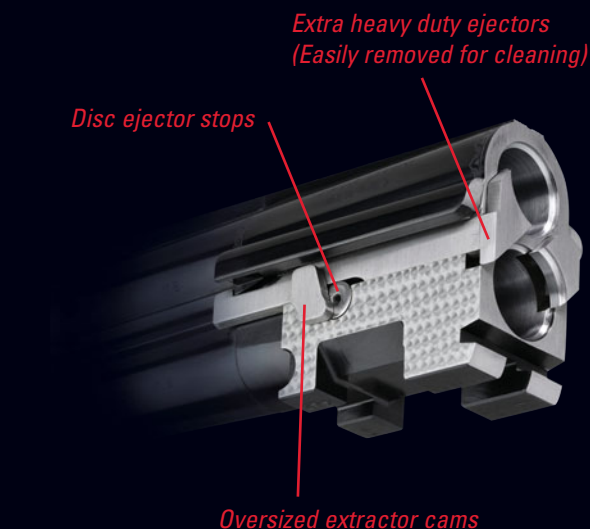

All Caesar Guerini shotguns, including the light models, undergo the 1370-bar high-pressure test at the Italian National Proof House.

2. Over travel

Checkered wood
butt plate

Turkish walnut with
hand rubbed oil finish

WOODLANDER

At Caesar Guerini upland bird hunting is a passion. We wanted a gun that would truly reflect our love of fall coverts, autumn foliage, wet gundogs, and the smell of wood smoke. The Woodlander is the shotgun you imagine in such a setting. It was created to be a classic upland game gun for tight cover and fast-flushing birds. The color case hardened action exudes an understated elegance. It is embellished with a single gold ruffed grouse executed in the Bulino style while nicely figured Turkish walnut featuring a traditional oil finish speaks of quality from a bygone era. The meticulously fitted wood butt plate allows for snag-free gun mounts and adds a custom look and feel. The Woodlander is also offered with an optional English straight stock. The lightweight barrels incorporate solid mid ribs to keep out debris, 7mm top rib in 12 gauge and 6mm top rib in sub gauges. If your priorities are traditional good looks and superior handling, then the Woodlander is the gun for you.

THE TEMPIO

Chosen by the Editors of *Field and Stream Magazine* as "Best of the Best" in Shotguns, the Tempio is designed to be a sleek and fast pointing shotgun in the field, the perfect companion for upland game hunters. Its low-profile receiver matched with a trim stock, classic Prince-of-Wales grip and schnable fore-end make the gun a perfect match for fast game birds. An English style straight stock is an available option. Each Caesar Guerini game gun is carefully engineered to balance near the hinge point, distributing the weight evenly between the hands, which is the secret to a finely crafted shotgun. The receiver is embellished with full coverage scroll engraving featuring Bulino style gold Pheasant, Mallard, and Woodcock game scenes. The rich "French Grey" finish is our durable nickel alloy that makes the Tempio receiver resistant to rust and wear. The Tempio also features a deluxe grade of Turkish walnut enhanced with a hand rubbed oil finish.

TEMPIO LIGHT

The Tempio Light brings an added dimension to the popular Tempio Field gun. Featuring a forged action and fore-end assembly crafted from a high tech aluminum alloy; the Tempio Light combines almost featherweight lightness for carrying and handling ease with unmatched durability and function. Additionally, the stock incorporates a hollowed out section to bring the light weight gun into perfect balance. The uniquely designed action features a hard anodized blued finish with durability and corrosion resistance qualities similar to those found on military spec. firearms. All wear points between the action and barrels are steel providing longevity similar to our all steel actions. Visually complementing the Tempio Light's receiver is Bulino style engraving with gold game scenes accompanied by fine scroll work. The deluxe grade natural oil finished Turkish walnut and fine 26 lines-per-inch checkering further enhance the Tempio Light's appearance.

MAGNUS LIGHT

Chosen as the best new shotgun by a panel of experts at *Outdoor Life Magazine*, the Magnus Light is truly an extraordinary shotgun. The Magnus Light was created to be the most attractive alloy frame over-and-under available. It weighs an astounding six pounds in twelve gauge and barely over five pounds in twenty, twenty-eight, and .410 gauges. Every detail is carefully considered to reduce weight and maintain balance. The frame and fore-end iron are machined from a solid forging of the best aircraft grade aluminum alloy. Durability is insured through the use of hardened steel at all high-wear points. To make the gun as light as possible and maintain perfect balance, we hollow the stock and craft the fore-end hardware from the same alloy as the receiver. If you hunt demanding terrain or just appreciate a light, responsive bird gun, the Magnus Light is the shotgun of choice.

THE MAGNUS

The Magnus is designed to appeal to the discriminating hunter who appreciates a classic shotgun with timeless qualities. It features an elegantly sculpted sidelock style receiver with fine scroll engraving depicting Grouse, Quail, and Pheasant game scenes in gold against a richly colored case hardened finish. The unique sideplates have no pins or screws for a perfectly smooth receiver with uninterrupted engraving. The Magnus series receives a deluxe grade Turkish walnut stock with a traditional hand rubbed oil finish to enhance the highly figured grain. The meticulously fitted wood butt plate allows for snag-free gun mounts and adds a custom look and feel. The grip is in the Prince-of-Wales style with the length-of-pull being fourteen and one-half inches. In front of the receiver, the fore-end is a schnabel design and incorporates an Anson button latch identical to the most expensive British guns.

THE ESSEX

The Essex field gun is destined to become a modern classic, featuring highly detailed, traditional English style rose and scroll and bouquet engraving on the receiver, side plates and fore-end iron. An elegant hand polished coin finish complements the delicate engraving creating a functional work of art. Another upscale detail of the Essex is the addition of a solid and tapered top rib, lending elegance and strength to the already trim lines of a Guerini shotgun. Enhancing the beauty of the fine scroll engraving is a deluxe grade of Turkish walnut featuring precision cut 26 lines-per-inch checkering, matching wood butt plate, and a natural oil finish hand rubbed to a stunning sheen. The lightweight barrels have solid center ribs to keep out debris, 8-6 mm solid tapered top rib in 12 gauge and 7-5 mm solid tapered top rib in sub gauges, and a high luster deep blue finish.

THE MAXUM

The Maxum is a true collector grade shotgun, featuring deep relief floral scroll hand finished engraving on the receiver, side plates, and forearm assembly. The hand work and design are from the studios of the world renowned Italian engraving house, Bottega Incisioni C. Giovanelli. An elegant coin finish complements the strikingly detailed classic style engraving, creating a functional work of art. Balancing the beauty of the deeply sculpted engraving is a deluxe grade of Turkish walnut, featuring precision cut 26 lines-per-inch checkering and a natural oil finish hand rubbed to a stunning sheen. The lightweight barrels have solid center ribs to keep out debris, 8-6 mm solid tapered top rib in 12 gauge and 7-5 mm top rib in sub gauges, completed by a high luster deep blue finish. The Maxum Field is available in 12, 20 and 28 gauges. Combination two-barrel sets in 20/28 gauges and three-barrel 20/28/.410 sets are also available.

THE FORUM

Making an investment quality field shotgun like the Forum requires an unrelenting passion for precision, premium quality and attention to the smallest details available only from the best of skilled craftsmen and gunsmiths. Each Forum Field Shotgun we create incorporates numerous hours of skilled hand labor. Every surface is hand polished, even many areas hidden from view, and every Forum's components are hand fitted to insure flawless operation. The premium coin finished receiver, "blind" side plates and monoblock are embellished with full coverage hand engraving featuring Bulino style game scenes framed in a graceful floral scroll. The unique side plates showcase the engraving without any unsightly screws or pins. The Forum Field also incorporates a full tang trigger guard meticulously inletted into a premium grade Turkish walnut stock. The stock is completed with exactly cut extra fine checkering, checkered butt and a hand rubbed oil finish.

SUMMIT SPORTING

The Summit Sporting is an efficient tool designed to accomplish only one task: breaking targets. Every feature is carefully conceived and executed. The receiver is designed to withstand a lifetime of competitive shooting. When you compare the thick receiver walls and large bearing surfaces with any other over and under, it becomes clear this gun is designed for durability. No matter how unlikely they are to wear out, the trunnions and locking lugs can be easily replaced. The stock includes palm swell, cast off, and toe rotation for either a right or, as an option, a left hand shooter. Each barrel length is designed to balance perfectly while offering stability, and the 12 gauge models feature our new Maxis Bore and Choke System. Our small gauge sporters are even offered with 32" barrels. The elegantly sculpted boxlock receiver is embellished with a neo-modern style engraving created by world famous master engraver Dario Cortini.

SUMMIT LIMITED

The Summit Limited embodies all the balance, quick handling and accurate performance qualities of the popular Summit Sporting and adds a deluxe grade of oil finished, hand rubbed Turkish walnut with a richly colored case hardened receiver to create a stunning sporting over/under. The same weight, feel and clay crushing performance of the standard Summit Sporting are inherent features of the Summit Limited. The 12-gauge version incorporates Caesar Guerini's new Maxis Bore barrels and Choke System for enhanced performance. This new barrel incorporates a .735 bore diameter with a longer choke system calibrated to the larger bore. The 12 gauge stocks have also been reconfigured to offset the slight increase in barrel weight. The 12 gauge models are offered in 30, 32, or 34 inch lengths while small gauge models are available in 30 and 32 inch. A two-barrel 20/28 gauge combo set is available as well as a three-barrel 20/28/.410 set.

MAGNUS SPORTING

The Magnus Sporting has all the performance and durability qualities of the Summit and Summit Limited, but is strikingly elegant with a classically designed side plate receiver. Our unique screwless and pin-less receiver side plates enable the stock to be removed as easily as a standard boxlock and allows for an uninterrupted engraving surface that lends beauty to an already functional firearm. The receiver is embellished with fine scroll engraving featuring gold Grouse, Quail, and Pheasant game scenes executed in the Bulino style. If you appreciate a sporting gun that is distinctive from all the others with its beautifully figured walnut and tasteful engraving, the Magnus Sporting is your gun, the shotgun of choice. Our sporting clays barrels feature a 10mm parallel top rib and ventilated mid ribs. Five inch forcing cones come standard. As with all 12 gauge sporting guns, the Magnus Sporting incorporates the new Maxis Bore/Choke System for improved performance.

MAXUM SPORTING

The Maxum Sporting is truly a stunning over/under shotgun. The deep relief gothic scroll hand finished engraving on the receiver, side plates, and fore-end assembly make this sporting gun unique among others on the clays course. The handwork and design are from the studios of the world renowned Italian engraving house, Bottega Incisioni C. Giovanelli. The coin finish frame is painstakingly hand polished. Balancing the beauty of the deeply sculpted engraving is a deluxe grade of Turkish walnut, featuring precision cut 26 lines-per-inch checkering and a natural oil finish, hand rubbed to a sheen that enhances the highly figured wood grain. The Maxum Sporting is available in 12, 20 and 28 gauge; 12 gauge models feature the new Maxis Bore/Choke System and are offered in barrels up to 34" for the serious competitor. Combination two-barrel sets in 20/28 gauge and three-barrel 20/28/.410 gauge sets are also available.

FORUM SPORTING

The Forum Sporting over/under reflects our relentless passion for precision, premium quality and attention to the smallest details available only from the best of skilled craftsmen and gunsmiths. The Forum Sporting is in a class by itself, a remarkable creation that combines the legendary Italian gunmakers' craft with technologically advanced manufacturing processes to produce a firearm that truly is a work of art. Each Forum created incorporates numerous hours of skilled hand labor. Every surface is hand polished, even many areas hidden from view, and every Forum's components are hand fitted to insure flawless operation. The premium coin finished receiver and side plates are embellished with full coverage hand engraving featuring Bulino style game scenes framed in a graceful floral scroll. The Forum Sporting also incorporates a full tang trigger guard with hand engraving and is meticulously inletted into a stock of premium grade Turkish walnut.

TRAP MODELS

The multi-axis DTS comb allows for the adjustment of: offset, cast, comb height, and comb drop. But, adjustability is not helpful unless the system is rugged. The DTS comb hardware is light but extremely simple and strong; designed to stay exactly where you set it.

.735" MAXIS bore barrels with chrome lining.

20mm ventilated recoil pad incorporating soft rubber compound for recoil absorption.

DTS (Dynamic Tuning System) rib incorporates anti-vibration dampeners.

1370 BAR

All Caesar Guerini shotguns, including the light models, undergo the 1370-bar high-pressure test at the Italian National Proof House.

Hammers and sears are precision machined from billet steel to ensure crisp trigger pulls.

Rebounding hammers

Interceptor sears

Independent inertia block

Anson push-rod fore-end release

Semi-beavertail fore-end with finger grooves.

26 l.p.i cut checkering

Screwless side plates

5" dual conical forcing cone

Length of Pull

The trigger has three adjustments:

1. Take up
2. Over travel
3. Length of Pull

Action recesses increase stock strength

The DTS rib allows the point-of-impact to be adjusted to an industry leading 60/40 to over 100% to precisely fit your shooting style. Adjustment is accomplished by simply turning an elevation wheel with positive detents and clear incremental markings.

Once the proper rib height and angle is obtained you can choose to lock it into place with a locking screw.

Turkish walnut with hand rubbed oil finish

The MAXIS chokes feature a conical-parallel contour, crowned muzzle end, clear markings, and extremely tight tolerances for constriction and concentricity.

SUMMIT TRAP

The Summit is our no compromise competition model. It is designed for the shooter who puts a premium on performance. The extensive list of features all work together in unison, reflecting our goal of making you the best shooter you can possibly be. The DTS (Dynamic Tuning System) allows any shooter to tailor the gun to their individual style. The rib adjusts the point of impact from 60/40% to over 100% while the DTS comb system moves four ways; comb height, drop, offset, and cast. The trigger is the heart of a trap gun. We have designed the Summit trigger system to meet the most demanding expectations with adjustable take-up, over-travel, and reach. Another key issue for the serious trap shooter is durability. The Summit is designed to meet the high volume demands of thousands of rounds a year. Oversized locking lug, rock solid ejectors, combined with modular wear points allow the Summit to be a durable and reliable shooting tool.

MAGNUS TRAP

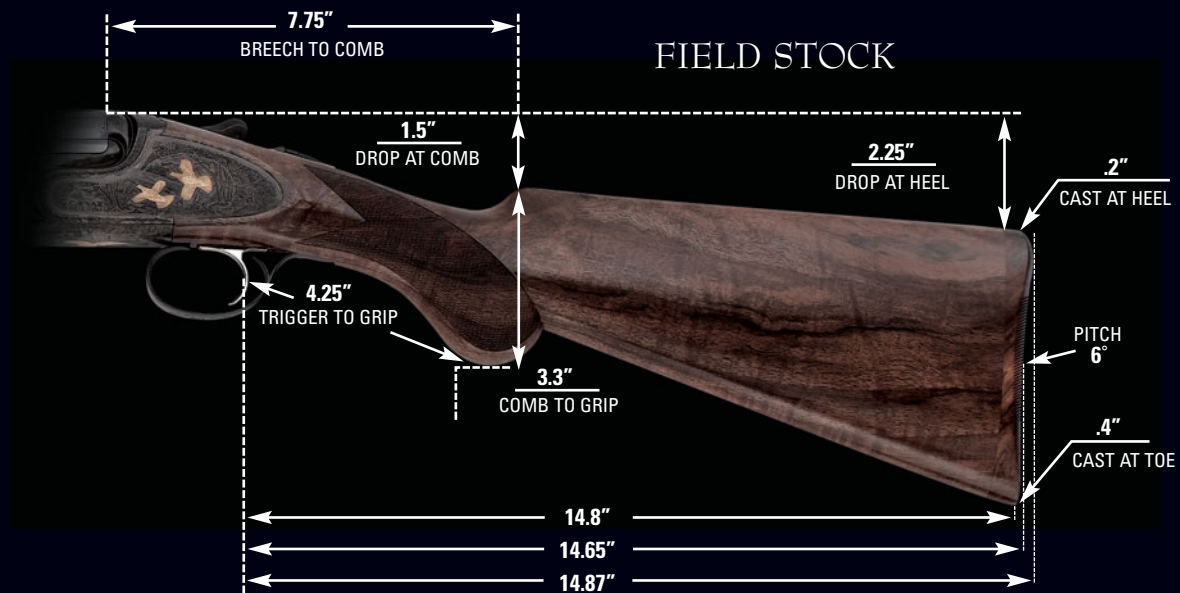

The Magnus Trap incorporates all of the performance and features of our Summit Trap gun. The DTS (Dynamic Tuning System) allows a shooter to tailor the gun to their individual needs. In addition the Magnus Trap has a traditional, richly colored case hardened action, engraved with scroll and game scenes featuring Grouse, Quail, and Pheasant in gold. The action includes our unique blind side plates, devoid of pins and screws. This creates an uninterrupted engraving surface and allows the stock to easily be removed from the receiver with only a simple t-handle wrench. The Magnus Trap is upgraded with a deluxe grade of Turkish walnut featuring a hand rubbed oil finish. As with all new Caesar Guerini target guns, the Magnus Trap includes the new Maxis Bore/Choke system, providing the ultimate ballistic performance. If you are looking for a gun that provides an elegant style as well as durability, then the Magnus Trap is the gun for you.

MAXUM TRAP

With comments like *"There is nothing about this gun I do not like"*, *"Scary how well this gun shoots"*, and *"Wow! What a dream gun"* it is obvious the *Outdoor Life Magazine* test team feels the same as we do about the Maxum Trap. They felt strongly enough to award it the prestigious 2007 Editors Choice award for best shotgun. The coin finish action is painstakingly hand polished, then engraved with an original design by famous master engraver Dario Cortina. The result is a stunning, deep relief scroll and ribbon, full coverage engraved action that is enhanced by an upgraded extra deluxe grade of Turkish walnut. The Maxum Trap excels on the trap line too. The Dynamic Tuning System, featuring an adjustable rib and comb system, allows any shooter to customize the gun to their shooting style. As with all of our trap models, the Maxum can be ordered with a factory release trigger and left hand stock as an option.

STOCK DIMENSIONS

Stock dimensions are based on 12 gauge. Stock dimensions are approximate and subject to change without notice.

WARRANTY & PROGRAMS

LIMITED LIFETIME WARRANTY

CAESAR GUERINI U.S.A., LLC, a Maryland limited liability company (the "Distributor") is the proud distributor of the firearm which you have purchased manufactured by Caesar Guerini s.r.l. (the "Manufacturer"). In our desire to provide you with superior customer service in connection with your firearm, the Distributor wishes to provide you the following extended warranty for your firearm which is, in addition to, and exceeds the Manufacturer's warranty which you received with your firearm at the time of purchase.

To benefit from this Distributor's warranty, you will need to complete and return to the Distributor the Distributor Registration Card by certified or registered mail within thirty (30) days of date of purchase.

THE DISTRIBUTOR WARRANTS THAT THIS FIREARM WAS MANUFACTURED FREE OF DEFECTS IN MATERIAL OR WORKMANSHIP WHICH ADVERSELY AFFECTS THE OPERATION OF YOUR FIREARM FOR THE SHORTER OF THE LIFE OF THE PARTS OR THE ORIGINAL OWNER. THIS WARRANTY IS NON-TRANSFERABLE AND IS LIMITED TO THE ORIGINAL PERSONAL RETAIL PURCHASER. SUBJECT TO SUCH LIMITATIONS AS ARE SET OUT BELOW, THE DISTRIBUTOR AGREES TO CORRECT ANY DEFECT IN MATERIAL OR WORKMANSHIP IN YOUR FIREARM WHICH ADVERSELY AFFECTS THE OPERATION OF YOUR FIREARM, AS DETERMINED BY THE DISTRIBUTOR'S TECHNICIANS, BY REPAIR OR REPLACEMENT (AT DISTRIBUTOR'S DISCRETION, AND IF THE FIREARM IS TO BE REPLACED, WITH THE SAME OR COMPARABLE QUALITY FIREARM).

The Distributor does not warrant the wood (stock or fore-end), or metal finish with respect to finish, matching of pieces, dents, scratches, cuts, dings, etc. which are or should be apparent to the purchaser when the product is purchased or which occur after purchase. It is the customer's responsibility to inspect this particular product prior to purchase to ensure that it is free from defects or damage. This Warranty is effective from the date of the original retail purchase of the firearm.

THE DISTRIBUTOR ASSUMES NO RESPONSIBILITY FOR FIREARM MALFUNCTION OR FOR PERSONAL INJURY OR PROPERTY DAMAGE OR DEATH RESULTING IN WHOLE OR IN PART FROM CRIMINAL OR NEGLIGENT USE OF THE FIREARM, IMPROPER OR CARELESS HANDLING, FAILURE TO PERFORM PRESCRIBED MAINTENANCE AS SET FORTH IN THE USER AND MAINTENANCE MANUAL ATTACHED TO YOUR FIREARM AT THE TIME OF PURCHASE, UNAUTHORIZED MODIFICATIONS, USE OF

DEFECTIVE, IMPROPER HAND LOADED, RELOADED OR REMANUFACTURED AMMUNITION, CUSTOMER ABUSE OR NEGLECT OF THE PRODUCT OR OTHER INFLUENCES BEYOND THE DISTRIBUTOR'S DIRECT AND IMMEDIATE CONTROL. THIS WARRANTY DOES NOT APPLY TO NORMAL WEAR AND TEAR OF ANY PARTS, INCLUDING METAL, WOOD, PLASTIC, RUBBER, SURFACE FINISH OR OTHER MATERIALS, OR IF UNAUTHORIZED REPAIR AND/OR ALTERATION HAS BEEN PERFORMED.

THE DISTRIBUTOR'S WARRANTY IS LIMITED TO THE WARRANTY PROVIDED HEREIN AND THE DISTRIBUTOR DOES NOT MAKE ANY IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FOR FITNESS FOR A PARTICULAR PURPOSE. THE DISTRIBUTOR SHALL HAVE NO RESPONSIBILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES OR EXPENSES.

This Distributor's Warranty cannot be changed except in writing by an authorized officer of the Distributor. Any warranty repair approved to be made to your firearm may only be made by an authorized repair facility. Dealers or gunsmiths (unless they are an approved repair facility) are not authorized to make any repair or adjustment on behalf of Distributor.

If your firearm should require warranty repairs, please contact the Distributor at the contact information on the attached "Warranty Assistance Sheet" and comply with the return instructions set forth thereon.

PITSTOP MAINTENANCE PROGRAM

What is it? It is dedication to our customers that is unprecedented in the firearms industry. It is a belief that service does not end when the sale is finished. It is a promise to you that when you invest in a high quality Caesar Guerini shotgun you are going to get service that protects your investment and assures maximum performance from your firearm.

- As the original owner of a Caesar Guerini shotgun you can send your firearm to us once a year for a free service and tune-up. (up to three times)
- Turn around time will be 5-7 business days.
- Your only cost is shipping.

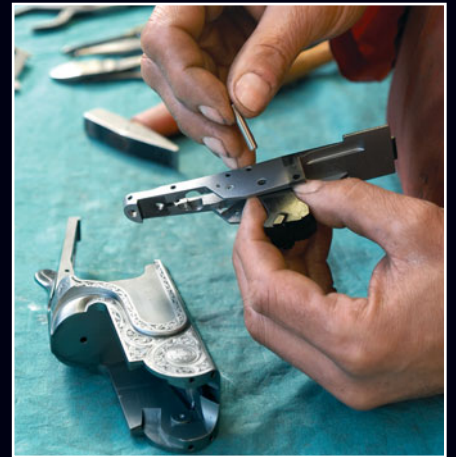

The Pit Stop program is a great way to have your gun in top condition for the upcoming hunting or target season.

CAESAR GUERINI: BRESCIA, ITALY

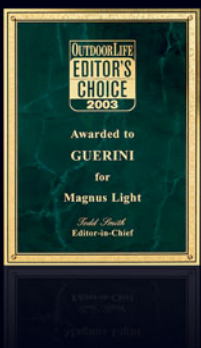

Caesar Guerini: Brescia, Italy

Caesar Guerini's modern manufacturing facility successfully combines legendary Italian gunmakers' craftsmanship with technologically state-of-the-art processes to produce firearms unequaled for their performance, beauty and value. Our penchant for precision and perfection is reflected through the more than 256 inspection points that every firearm passes. Every Caesar Guerini over/under is indeed a modern classic, a functional example of Italian art.
